

Nathan J. Doogan

CONTACT INFORMATION Ohio Colleges of Medicine
Government Resource Center *E: nathan.doogan[at]osumc.edu*
The Ohio State University *Twtr: @ndoogan*
97 Pressey Hall *WWW: doogan.us*
1070 Carmack Rd. *Ph: 614.293.9870*
Columbus, OH 43210 USA

RESEARCH INTERESTS *Addiction:* Nicotine/tobacco addiction, and peer-oriented recovery contexts for those recovering from substance use disorders (e.g., sober living homes)
Health Disparities: Health equity and social justice, particularly in relation to addiction
Networks: Many natural and engineered systems—including social systems—consist of multiple interrelated parts and are therefore well represented by and studied as networks
Causal Inference: Isolation of the causal effect of one variable on another using observational data with techniques such as instrumental variables and difference-in-differences, and with general frameworks such as Judea Pearl’s do-calculus.

EDUCATION **The Ohio State University**, Columbus, Ohio USA

- *Ph.D., Social Work, Spring 2014*
 - Specialization: system science
 - Dissertation topic: therapeutic community resident semantic networks and recidivism outcomes
 - Adviser: Professor Keith Warren
- *Master of Social Work, Spring 2008*
 - Thesis topic: exploring therapeutic community residential interactions using agent-based modeling
 - Internship: Franklin Co. Alcohol, Drug, and Mental Health Board
 - Adviser: Professor Keith Warren
- *B.S., Social Work, Spring 2006*
 - Internship: home-based counseling at Directions for Youth and Families in Columbus, OH

PROFESSIONAL EXPERIENCE **The Ohio State University—Ohio Colleges of Medicine Government Resource Center**, Columbus, OH

- *Research Analytics Consultant* 6/2018—present

The Ohio State University—College of Public Health, Columbus, OH

- *Post Doctoral Fellow with Mary Ellen Wewers* 7/2014—5/2018
 - National Institutes of Health post-doctoral trainee
 - experiences: project leadership, collaboration, personnel training, presentation, grant and manuscript writing, data analysis and modeling

The Ohio State University—College of Social Work, Columbus, OH

- *Grad. Research Associate with Alicia Bunger*.....8/2013—6/2014
 - questionnaire design
 - focus group facilitation
 - electronic survey data collection
- *Grad. Student Lecturer—Research & Statistics*.....9/2011—6/2012
 - three course series including basic research, statistics, and facilitation of hands-on group research experience (see Teaching section below)

The Ohio State University—Sociology Department, Columbus, OH

- *Grad. Research Associate with Dana Haynie*.....7/2011—8/2012
 - longitudinal social network and behavior coevolution modeling
 - grant proposal and manuscript preparation
 - substantial work with Add Health data

The Ohio State University—College of Social Work, Columbus, OH

- *Grad. Research Associate with Keith Warren*.....9/2008—6/2011
 - management of large longitudinal relational data set
 - longitudinal social network analysis
 - agent-based model programming and exploration
 - manuscript preparation
- *Work Study with Keith Warren*.....9/2007—6/2008
 - agent-based model design and programming (NetLogo)
 - pilot study for NIDA grant application
 - literature review

Directions for Youth and Families, Columbus OH

- *Licensed Social Worker*.....7/2006—8/2007
 - home-based counseling for adolescent youth

TEACHING

Lead Lecturer in Three-Course Undergraduate Research Series

- *Introduction to Research Methods (SWK 571)*..... Fall 2011
 - primarily lectured a classroom of approximately 25 students
- *Introduction to Statistics for Social Scientists (SWK 570)*..... Winter 2012
 - lecture (25 students) and lab section (12 students)
 - developed high quality specialized visuals to convey complicated material
 - developed hands-on lab section for practicing inferential statistical analyses
- *Applied Research (SWK 572)*..... Spring 2012
 - interactive group work and lecture with 25 students
 - guided design and execution of small group-based research projects
 - facilitated student research symposium with faculty judges

Teaching Assistant

- *Introduction to Statistics for Social Scientists (SWK 570)*..... Fall 2010
 - design of data and analysis examples
 - interactive computer lab sessions

AWARDS

Grants

- 1R21CA205589-01 (Co-PIs: Stillman & Wewers) 6/2016—5/2019
NIH/National Cancer Institute \$239,250

Defining the urban-rural continuum and distinguishing rural differences to prevent tobacco use

The purposes of this application are to assess utility of several common definitions vs. a new definition of urban-rural continuum to explain variation in tobacco-related outcomes and determine similarities/differences across two rural populations (Appalachia, Southern/Delta) with regard to factors that contribute to high prevalence of tobacco use.

Role: Co-Investigator

Other

- *American Society of Preventive Oncology Travel Award (top ranked abstract)*..2016
- *Merriss Cornell Distinguished Researcher (outstanding dissertation)*..... 2014
- *Merriss Cornell Scholarship (outstanding dissertation proposal)*.....2013
- *Criminal Justice Research Center Student Travel Grant*.....2012
- *College of Social Work "Ask Fred" Student Research Travel Fund*..... 2008

Research Conferences

- Stata Conference 2018 in Columbus, OH.
- NIH Tobacco Regulatory Science 2018 grantee meeting in Bethesda, MD.
- Society for Research on Nicotine & Tobacco 2018 annual meeting in Baltimore, MD.
- Vermont Center on Behavior & Health 2016 annual conference in Burlington, VT.
- List truncated.

TECHNICAL
SKILLS

Data Analysis

- *Regression Modeling*
 - generalized linear mixed models (GLMM) / hierarchical linear models (HLM)
 - event history / survival models
 - Spatio-temporal modeling (Gaussian process regression)
- *Social Network Methods*
 - statistical description and visualization
 - inferential models of cross sectional, longitudinal, and multiplex network data
- *Miscellaneous Techniques & Tools*
 - agent-based modeling
 - systems dynamics modeling
 - analysis of data from complex survey designs
 - geographic information systems (GIS)
 - Bayesian inference
 - Monte Carlo methods
 - high quality statistical graphics (R)

Data Management, Computing, and Programming

- *R*: statistical computing, data linkage, manipulation, and visualization
- Stan: probabilistic programming language and sampler for Bayesian inference
- *MySQL*, *MS Access*: database software
- *Super Computing Services*: e.g., Ohio Supercomputer Center

Productivity

- *Zotero*: reference management
- *MS Word*, *Excel*, *Access*, *PowerPoint*, *Publisher*: many popular productivity applications
- \LaTeX , BibTeX , PSTricks : typesetting, bibliography, and vector based graphics for creating professional technical documents such as this CV
